EXPLANATION OF ENTRIES

- 1 917.299 A
2 **Augustinovic, Horst.**
3 What you may not know about Bermuda.
 Volume three / by Horst Augustinovic. –
4 Hamilton, Bermuda : Print Link, [2015]
5 111 pages : illustrations (some colour),
 facsimiles, maps, portraits ; 26 cm
 "Written for Bermuda"–Cover.
 ISBN: 9780947480080 : \$24.00
6 1.Bermuda–Guidebooks. 2.Bermuda–Social
 life and customs. 3.Bermuda–History. I.Ti.
 II.Ti.:About Bermuda.

1. The first element of this sample entry is the Dewey Decimal Classification number:

900 - GEOGRAPHY, HISTORY, AND AUXILIARY DISCIPLINES
910 Geography and Travel
917.2 Geography of and Travel in North America
917.29 Geography/Travel West Indies and Bermuda
917.299 Geography/Travel Bermuda

In other words, each Dewey Decimal number represents a subject. The Dewey number is followed by a letter of the alphabet, "A" in the above example. This letter represents the first letter of the main entry heading (usually the first letter of the author's surname).

2. **The main entry heading is printed in bold type.** The main entry heading in the above example is the author, **Augustinovic, Horst.** The "author" of a work is sometimes a Government Department or some other agency or body, e.g., in the text there are main entries like this: **Bermuda. Ministry of Finance. Dept. of Statistics.** Anonymous works, most works produced under editorial direction, most serials, and other works where the authorship is diffuse, are entered under the first word of the title which is not an article.
3. The title is: "What you may not know about Bermuda. Volume three." A diagonal slash "/" following the title precedes the name/s of the individual/s or organisation/s considered to be responsible for the contents of the work, e.g., authors, editors, illustrators, etc.
4. Statements relating to the publication of the item are listed next in the example. In this case, the date is enclosed in square brackets "[]". Square brackets are used to indicate information supplied by the cataloguer. Publication dates are recorded in square brackets when the item contains a copyright date but no publication date or if the date is obtained from somewhere other than the item in hand. The source of information in catalogue records can come from outside the document itself. If the place of publication, the publisher or the date of publication are uncertain, but there is some evidence which allows the cataloguer to make a reasonable guess, a question mark "?" is used. Therefore, the example shows that: the book was published in Hamilton, Bermuda by Print Link, in 2015.
5. The following lines vary from entry to entry but they always include statements about the size and physical description of the item. Records may also include notes about the source or contents of the materials or any other information that the cataloguer considers of importance. If the work has an International Standard Book or Serial Number (ISBN or ISSN) it is given along with the price. "No price" is used in the entries for items which are free of charge and for donations of out-of-print materials where a current market value cannot be easily determined.
6. The remainder of the record is a list of the added entries which were used by the Bermuda National Library when the book was catalogued, i.e., entries will be found under the subject headings, "Bermuda–Guidebooks," "Bermuda–Social life and customes" and "Bermuda–History" and under the titles, "What you may not know about Bermuda. Volume three" and "About Bermuda."

Wyatt-Rossignol, Martha.

My triumph over prejudice : a memoir / Martha Wyatt-Rossignol. – Jackson : University Press of Mississippi, [2016]
vi, 227 pages : illustrations, portraits ; 23 cm. – (Willie Morris books in memoir and biography)
"The autobiography of a black girl growing up in Mississippi during the civil rights era. Born in 1949, Martha

Wyatt-Rossignol came of age during some of the most crucial and dangerous years of the civil rights movement. She examines those years and what happened when the movement upended her small town of Fayette. She describes the conditions under which blacks lived during segregation and how those oppressive rules changed, despite massive resistance from whites. Wyatt-Rossignol faced racial hatred when she was chosen for an early school desegregation program. Her failed marriage to an African American led to her dating and later wedding a white man, a civil rights worker from the North, to whom she is still married. That union sparked disapproval from both the white and black communities, revealing entrenched complexities of race and racism in her hometown. ... Wyatt-Rossignol's story concludes with her move out of Mississippi to the island of Bermuda, where she encounters a very different racial environment" – Provided by publisher.
